Section 2: Needs Assessment

A. Current Assessment of Mentoring Program

The Pleasantville Public School District is highly committed to providing an outstanding mentoring program to assist new hires with making important first year adjustments. To ensure that the needs of new teachers and their mentors are being met in accordance with the 2014 New Jersey Teacher Mentoring Regulations (N.J.A.C. 6A9-8), Pleasantville School District conducts a thorough needs assessment in the beginning of each year and then checks the progress of new teachers and their mentors throughout the school year. The new regulations include a new definition of Professional Development and revised standards for professional learning intended to focus on continuous improvement for enhanced student outcomes. Support also includes:

- A comprehensive two-day orientation for all new first-year teachers
- Weekly mentoring support during the critical first four weeks of employment
- Mentor leads mentee in guided self-assessment on Danielson's Evaluation
- Individualized support in the professional development plan (PDP) within 30 days of new assignment
- A mentor training program
- A required reflective mentoring log
- Training in Common Core State Standards
- Ongoing professional development with a clear focus on teacher effectiveness and professional learning strategies that enhance student learning outcomes, so students can meet the Common Core State Standards (CCSS) aligned with N.J.A.C. 6A:9-3 and N.J.A.C. 6A:9-5.3.
- Constructive feedback on teaching practices
- Comprehensive data analysis

Mentor selection will include a more formal application process and monitoring system of mentor-mentee matches. The Chief School Administrator (CSA) or designee will interview both the mentor and the mentee on a regular basis to determine how the new hire is progressing in terms of classroom management, content knowledge, curriculum implementation that is aligned with state standards and school district expectations for teacher effectiveness. The district's School Improvement Panels (ScIPs) will also support implementation of mentoring plan. The ScIPs were established through the TEACHNJ Act to support mentoring and professional development opportunities. ScIPs can ensure that teachers receive useful feedback on their practice and their students' learning outcomes; experience high-quality, tailored professional learning and are a respected voice in decision making.

Mentors will become more aware of their roles and responsibilities through district-wide training. Mentor training will also vary from new teacher to new teacher dependent upon the identified needs of each new hire, since new hire includes both novice teachers and experienced teachers who are new to the district. Through initial meetings, interviews, and a pre-mentoring survey, the mentor will determine if the new teacher needs assistance with: learning routines and

procedures, lesson planning, classroom management skills, discipline strategies, engaging students, establishing a positive classroom environment, assessing student performance, understanding NJCCCS and CCSS, assessments, district curriculum alignment, communicating and involving parents, time management skills, participation in staff development, teaching with technology, and reflective practices. The individual mentoring plan will be tailored to meet the identified needs of each new teacher. Communication and interaction between mentors and mentees can also be enhanced through digital technology through the use of cell phones, emails, FaceTime, etc.

Section 3: Vision and Goals

A. Mentoring Program Vision

A primary goal of the Pleasantville School District is to prepare, support and guide new staff at Pleasantville School District professionally, academically, socially, and emotionally. As stated in its mission statement:

The mission of the Pleasantville School District is to provide a safe, academically focused environment within our culturally diverse community where all students have the opportunity to achieve the New Jersey Core Curriculum Content Standards and the Common Core State Standards at all grade levels. We will challenge each student to confidently achieve his or her educational and personal goals as well as acquire the work and social skills essential to become a productive member of society.

In an effort to carry-out our mission, all novice teachers will be assigned a mentor and participate in a one-year mentoring program (30 weeks for traditional route and 34 for alternate route) at the beginning of the provisional year. Mentees will keep a log of their interactions with

their mentors as required by 2014 New Jersey Teacher Mentoring Regulations. We believe our Mentoring Program is a vital first step in maintaining quality teaching, encouraging a high level of morale, and establishing a good rapport between educators and, ultimately, students within our schools and our community.

There are also opportunities for novice teachers to attend “In-House” professional development sessions provided by district staff.

Funding will be needed to cover the costs of training materials, substitutes, and fees for attendance at targeted professional development sessions.

State funds will be utilized to offset the cost of implementation of the mentoring program and shall supplement, rather than supplant, any federal or local funds devoted to planning and implementation of this plan.

In the absence of state funds, novice teachers will be required to pay the mentoring stipend, unless the district provides other alternatives. The mentor stipend is a certification requirement for all novice teachers.

- The mentoring stipend for traditional route teachers is \$550 for 30 weeks of mentoring.
- The mentoring stipend for alternate route teachers is \$1,000 for the 20-day clinical experience and for the remaining 30 weeks of mentoring.

While previous results indicate that the Pleasantville School District has a very high retention rate with new teachers regarding adjustment to the profession, job satisfaction, and success with gains in curriculum knowledge and classroom management, we feel annual evaluations of the program will enhance collaboration. Therefore, the Pleasantville Mentoring Program will undergo a period of evaluation, reflection, and adjustment at the end of each school year to better enhance our program for the subsequent year.
