38. Be it Resolved, that the Pleasantville Board of Education approve Leeds Avenue School to participate in the Million Father March 2015. Event will be at the LAS School grounds.

39. Be it Resolved, that the Pleasantville Board of Education approve The Data Review Team will meet on a regular basis to review progress based on the Data Review Questions. During the review team members will engage in an honest conversation about student learning. The regular review of student performance data will help us:

- Understand what students know and need to know
- Evaluate progress of school toward important initiatives: grade levels toward team goals; classrooms toward benchmarks by group, gender, and individual;
- Systematically collect and analyze various types of data, including demographics, perceptions, student learning, and school processes data. For example, we will look at enrollment, attendance, gender, grade level, environment, observations, formative and summative assessments, and school program data (AVID & PBSIS).
- Communicate with greater accuracy to parents
- Design and assign interventions early, before it is too late
- Look at the impact instruction is or is not having
- Provide data for student goal setting
- Look for patterns and trends in learning and attendance
- Regroup students for performance
- Reallocate school resources (money, people, and time)

The total cost of the Data Review Team is not to exceed \$5,400.00 per the School Improvement Plan (SIP) utilizing account #15-421-100-101-0000-055.
