Pleasantville, NJ 08232

RE: Decatur Avenue School

Dear Mr. Marsh,

BACKGROUND:

Coastal Environmental Compliance, LLC (Coastal Environmental) has supervised the mold clean up at the Decatur Avenue School conducted by district staff, during the month of August, 2013. The remainder of the school was mold free.

FINDINGS:

The following areas have been completed by district staff, and tested by Coastal Environmental:

Rooms DA-2, DA-3, Cafeteria & DA-13

AIR SAMPLING RESULTS:

Rooms DA-4, DA-13 and the Cafeteria have passed clearance. Air sampling of the areas tested indicates acceptable levels of airborne fungi, as compared to the outdoors. Concentration and species are comparable to ambient readings.

The results of Room DA-3 will be received on Thursday, September 5, 2013.

RECOMMENDATIONS:

Based upon the testing results and visual observations, Coastal Environmental Compliance, LLC recommends the following:

- ✚ No further action required.
- ✚ The School is safe for occupancy, with the exception of Room DA-3, which will be sent as soon as results are received.

Coastal Environmental Compliance, LLC is pleased to have provided the Pleasantville Board of Education with professional services.

Sincerely,
Coastal Environmental Compliance, LLC
