RE: South Main Street School

Dear Mr. Marsh,

BACKGROUND:

Coastal Environmental Compliance, LLC (Coastal Environmental) has supervised the mold clean up at the South Main Street School conducted by district staff and ServPro, during the month of August, 2013.

FINDINGS:

The following areas have been completed by district staff and ServPro, and visually inspected and/or tested by Coastal Environmental:

<p>Rooms 101, 102, 103, 104, 111, 120, 122, 123, 129 No visible mold was found in any of the other rooms in the school.</p>

AIR SAMPLING RESULTS:

Room 111, 122, and 123 have passed clearance. Air sampling/visual inspection of the areas tested indicates acceptable levels of airborne fungi, as compared to the outdoors. Concentration and species are comparable to ambient readings.

The results of Room 101, 102, 103, 104, 120, 129 are in the process of being cleaned, and will be tested upon completion.

RECOMMENDATIONS:

Based upon the testing results and visual observations, Coastal Environmental Compliance, LLC recommends the following:

- ✚ No further action required.
- ✚ The School is safe for occupancy, with the exception of the unfinished rooms, which will be tested upon completion.

Coastal Environmental Compliance, LLC is pleased to have provided the Pleasantville Board of Education with professional services.

Sincerely,
Coastal Environmental Compliance, LLC
