A PATH BACK TO THE TRADITIONAL SCHOOL SETTING

Future Pathways is designed to help students get back on track—not to limit their future opportunities. Students who demonstrate consistent improvement in attendance, behavior, academic performance, and overall participation may have the opportunity to return to their traditional middle or high school setting. Decisions regarding a student's return will be based on documented progress and the student's readiness to successfully transition back to the traditional school environment.

We recognize that every student has strengths, talents, and the ability to succeed when provided with the right supports. Our goal is to work together with you and your child to identify those strengths, address barriers to success, and help your child develop a positive path toward graduation, college, career, and lifelong success.

We ask that you view Future Pathways as an opportunity for a fresh start. Your partnership and support will be essential to your child's success. Additional information regarding enrollment, transportation, uniforms, program expectations, and the student's individual plan will be provided by the school.

One Team. One Community. ***ONE MISSION.***
