

## **Congratulations! Leeds Avenue School Students' decorated tree in Washington DC**

From the Kittatinny Ridge to the lowlands of Cape May our state is beautiful. Our young artists at Leeds Avenue School attempt to capture the essence of this diverse geographic state from mountain tops to sandy beaches. From our state natural flower the Violet to the joy of days they have spent at our shores. They shared their pride by depicting our majestic state oak trees and state bird the Goldfinch. Many of their designs were created to show the joy that they have spent at boardwalks and cities. Their enthusiasm for creating these artworks was outstanding and the pride they displayed when doing this project was inspiring.
