Food Service Equipment Bid PPS #21-13

Pleasantville Board of Education

ISSUED May 13, 2022

## Food Service Equipment

- 1) Can you advise whom will be performing utility connections / final hook ups on each of the new units in question in the bid?

**Response:** The Pleasantville School district contractor will perform the final connection for utilities at the time of delivery

- 2) Can you advise whom will be performing service upgrades as needed (i.e. electrical disconnects where needed, changing breaker size, etc.)

**Response:** The Pleasantville School districts contractor will be performing the service upgrade at the time of delivery on a as need basis. (i.e. electrical disconnects where needed, changing breaker size, etc.)

- 3) Can you advise whom is to handle new ductwork for dish machine upgrades?

**Response:** The Pleasantville School District HVAC contractor will handle the existing and new ductwork for the dishwashing unit at the time of equipment delivery.

- 4) Can you advise installation timeframe? As Alex mentioned it is nearing the 11<sup>th</sup> hour where it may be difficult or near impossible to get these items into stock and installed prior to the commencement of the new school year. At present the dishwasher will be removed from the bid.

**Response:** The Food Service vendor Whitsons Culinary School will provide the specification for Pleasantville School district. Based on the provided specifications, the Pleasantville school district contractor will provide pre-construction assembling of hook-up prior to equipment arrival.

- 5) Can you advise if the district will be amending the specification for the following?

**Response:** The Food Service vendor Whitsons Culinary School will provide the amended specification for Pleasantville School district.

- a. Was told mixer size in spec was incorrect for the School's needs.

**Response:** Please remove this particular mixer from the bid (Planetary Mixer - Item 5)

- b. Was told that the dishwashers had extra accessories that raised costs that were not needed and would be amended.

**Response:** Please remove this particular dishwasher from the bid (Dishwasher – Item 10)

- 6) Can you advise if there will be an addendum to add additional items that are needed that were found throughout the walkthrough that were not in the bid?

Response: There will be an additional bid to address any items not listed or changes. Please remove from the bid: (2) double-door refrigerators from bid. (Reach In Refrigerator - Item 7 & 8)

7) Can you advise how the district plans to proceed with the drop-in wells that were asked to be quoted in the service counters. Per Alex it was a bit of an issue that we could not guarantee fit into the counters and the recommendation was all new service counters. If the spec remains our company will likely submit this as a "No Bid" line item.

a. Can you confirm you will accept "No Bids" on certain line items or if the bid is winner take all?

Response: We intend to have all bid response to as many items as possible. Yes, if bidders are unable to respond to specific items, we will except a "No Bid" for items request. It is possible to have more than one bidder awarded for the food service equipment. Please see Page: 60

1. The Spotted Delivery cites "standard industry assembly and installation". Please clarify if this "set in place" or "including all final utility connections" as there is gas cooking equipment; dish machines that require electric and water; drop-in food wells that will require cutting existing counters. There is also no mention of the duct work and dish tables that are required for the dish machine.

**Response:** The Pleasantville School district contractor will perform the final connection for utilities at the time of delivery. Please refer to Addendum 2 for changes of equipment for submission.

2. Please confirm the manufacturer and model number of Control; #15 Sneeze Guard. We have been unable to identify this manufacturer or source this item based on the information provided in the bid docs. ( SERVTECH SPA 4w-CON-61 C)

### Delivery

All items or their equivalent are to be delivered to the identified Board of Education location and taken off the truck by transportation carrier personnel and brought to a designated area inside the school cafeteria. The Board reminds all bidders that bid prices for equipment are to include all freight and spotted delivery to the kitchen sites, uncrating of equipment, standard industry assembly and installation, if necessary, and removal of all debris. The Board will not pay any other delivery charges. School district personnel will not be able to assist in the delivery process.
