

8th Grade Early College/NJHS/SEW
Ventnor Beach Clean Up Community Service Project

On Saturday, October 21, the 8th grade Early College students partnered with the students of the NJHS and Social Emotional Wellness Club to participate in their first community service project of the year.

On Saturday, students teamed up with *Clean Ocean Action* for their annual Beach Sweep in Ventnor, N.J.

20 students visited the beach and in pairs, using gloves and buckets, worked to clean the beach of debris. When the debris was collected, students were asked to fill out a

data card identifying each piece of debris as either garbage or recycling. Overall, the students enjoyed themselves all while helping the environment. The weather ended up being perfect and students look forward to the next Beach Sweep in April of 2024!
